

**TO:** Emergency Responders

**FROM:** Rick H. Carlile

**DATE:** Tuesday, August 05, 2008

**RE:** Attendance at Cobra classes

Attached are course descriptions, pre-requisites and applications for the courses taught at Cobra. This is excellent training taught in Anniston, Alabama. All training and travel costs are provided for by COBRA. If you have an interest in attending one of the courses please fill in the application attached to this document and either fax (801-256-2495) **NOTE-do not dial 801 when faxing within the 801 area code as it will not go through.** . Please email me or call to verify that I have received your application as many have not arrived, or email it to Rick Carlile at [rcarlile@utah.gov](mailto:rcarlile@utah.gov) 801-256-2480. Because we don't know which classes are full please indicate on the application your top three choices in order of preference, for the dates you would like to attend. Also check out our Website at [www.des.utah.gov](http://www.des.utah.gov) . Note: When filling in the application first press the "Insert" key on your computer. This will allow you to enter data without changing the look and format of the form

There will still be some EMI delivered classes given at Noble, but I will register responders for the following (formerly EMI) courses:

- B960 - Healthcare Leadership
- B461 - Hospital Emergency Response Training for Mass Casualties
- B965 - Fundamentals of Healthcare Emergency Management
- B966 - Advanced Public Information Officer: Health and Hospital Emergencies

**Thank You For Your Interest**

**Rick H. Carlile**

# COBRA

<https://cdp.dhs.gov/>

**SUBJECT: Center for Domestic Preparedness**

Dear Responder,

The training is sponsored by the United States Department of Homeland Security, Office For Domestic Preparedness.

**Training is completely funded.** This includes; airfare from home station to Atlanta and return, ground transportation from Atlanta airport and return, ground transportation at the Center, meals and snacks during training period, lodging, training and training material. We do not cover fees associated with you getting to the airport, parking and returning home. We will pay mileage for someone who chooses to drive their personal vehicle, 37.5 cents a mile not to exceed the price of an airline ticket from the same location.

You should complete the training application and medical screening form and forward it to the State Coordinator:

Please contact me for your State Coordinator's contact information.

You should list three choice class dates on your application. Once you are selected you will be notified by your State Coordinator and given your class date (30-45 days) prior to the training session. If you are able to attend that class we will make all of your travel arrangements and forward you a packet (FedEx to your home address) with all the required information. If you are not able to attend the designated class, please notify the State Coordinator or the Center, you will be placed back on the standing list. You could substitute any selection made by us with another qualified applicant.

I have attached the required enrollment documents. I am the Registrar for all Center Training. Future questions regarding training and the application process may be addressed to the Center's Eastern Region Coordinator. Her name is Sandra Pagan.

TERT- Technical Emergency Response Training  
HT- Hazardous Materials Technician  
IC- Incident Command  
HOT- Hands on Training  
LEPM- Law Enforcement Protective Measures  
TtT- Train the Trainer  
ITC- Instructor Training Certification  
EMS- Emergency Medical Services  
ER HM- Emergency Responder Hazardous Materials Technician

## Center for Domestic Preparedness Resident WMD Training Application Procedure

- Step 1: Complete Training application and medical screening form.  
-include three dates and you will be placed in the first available class  
-if you answer "yes" to any medical screening question you must include a letter from a doctor stating you are clear to train in Personal Protective Equipment (PPE).
- Step 2: Process the application through your chain of command / approval authority.
- Step 3: Fax completed application and medical screening form to your respective State Training Point of Contact. (See list below)
- Step 4: State Training POC's will review the application and forward to the Center for Domestic Preparedness for scheduling.
- Step 5: Once schedule the state POC's will receive a confirmation e-mail with class dates.
- Step 6: A responder packet, containing e-ticket and inprocessing paperwork, will be mailed to your home address. This packet is required for inprocessing on arrival day.

## **WMD Technical Emergency Response Training Course (TERT)**

### **COURSE DESCRIPTION**

The WMD Technical Emergency Response Training Course (COBRA), is a 4-day training program designed to provide emergency responders operational level instruction on responding to and operating in a WMD environment. The course covers chemical, ordnance/explosive, biological, and radiological/nuclear (COBRA) threats; the current domestic and international terrorist threat; managing a WMD scene; determining the breadth of a WMD incident area; and dealing with the media at a WMD incident. In addition it provides 20 hours of hands-on familiarization training with specialized protective clothing and equipment, chemical detection and identification equipment, decontamination, triage and ordnance/explosive recognition and response. The course concludes with a multi-task, hands-on performance oriented training in the WMD [Toxic Agent] (COBRA) Training Facility.

**Prerequisites:** This course is designed for emergency responders who have completed WMD awareness level training. The target audience for this training is emergency responders in Fire Service, Law Enforcement, Emergency Medical Service, Emergency Management and Emergency Communications.

**\*This course is not for HAZMAT technicians.**

## WMD Hazardous Material Technician Training Course (HT)

### COURSE DESCRIPTION

The WMD Hazardous Material Technician Training Course (COBRA), is a 3-day in-depth training course in the composition, action, identification, and decontamination of WMD agents that have the potential for use in a terrorist incident. This course also includes training in the preservation of evidence at a crime scene, an overview of the international and domestic terrorist threat, and a series of practical exercises involving WMD detection, identification and protective equipment and techniques for operating at a WMD terrorist incident. This training course culminates with a multi-task, hands-on training exercise in the WMD [Toxic Agent] (COBRA) Training Facility.

**Prerequisites:** Hazardous Material Technicians attending this training must be certified as having successfully met the competencies outlined in OSHA 29 CFR 1910.120 and NFPA 472 for HAZMAT Technicians.

## WMD Incident Command Training Course (IC)

### COURSE DESCRIPTION

The WMD Incident Command Training Course is 3-days of in-depth training that take the attendee through the entire spectrum of command of a WMD terrorist event. The course provides instruction on WMD, the incident command system coupled with the Federal response, and examines the complexities of operational considerations and actions of command at a WMD event. The course takes the attendee through pre and post considerations by incorporating a segment on planning for the response using techniques that allow the commander to determine the correct composition of the planning team, evaluating the threat to the jurisdiction, identifying and prioritizing probable targets, measuring required capabilities, and developing a local incident response plan to a WMD terrorist incident. The course culminates with the attendee participating in an eight-hour real time tabletop exercise using the materials developed in the previous sessions to plan for and command the emergency response resources at the incident site.

**Prerequisites:** Emergency responders attending this training must be trained to the competencies outlined in OSHA 29 CFR 1910.120 and NFPA 472 for Incident Commanders, and they must have a thorough understanding of the Incident Command System. The target audience for this training includes those command level responders in the fire service, law enforcement, emergency medical service, emergency management and emergency communications, or other emergency response profession.

## WMD Hands-On Training Course (HOT)

### COURSE DESCRIPTION

The Hands-On Training Course consists of a 2-day advanced training program providing hands-on training with personal protective equipment (PPE), advanced sampling and monitoring equipment, evidence collection and preservation, mass casualty triage, and explosive/ordnance secondary devices and searches. The course concludes with a multi-task, hands-on performance oriented training in the WMD [Toxic Agent] (COBRA) Training Facility.

**Prerequisites:** The WMD HOT course is for responders who have successfully completed the Center for Domestic Preparedness (CDP) WMD Incident Command Course (after April 1, 2002), a CDP site delivered training program, a CDP Indirect Response Training course, or other Department of Homeland Security (DHS) recognized training program as outlined in the Office of Domestic Preparedness Training Course Catalog. This course is also a sustainment program for graduates of CDP operations and command courses. Graduates are eligible one year from their initial training date. **The Hot course is not for HAZMAT Technicians. Prerequisite Certificate must be sent with application.**

## WMD Law Enforcement Protective Measures (LEPM TtT)

### COURSE DESCRIPTION

This 16 hour training program is resident delivered and encompasses WMD related topics and scenario driven practical exercises for the in-service training of law enforcement officers. The first 8 hours of training presents information on terrorist tactics and targeting, related WMD hazards, indicators of terrorism, and protective measures taken by law enforcement officers responding to a terrorist WMD event. The second 8 hours of this training program is a **Train-the-Trainer (TtT)** session to assist attendees with the skills necessary to present the LEPM training in their home jurisdictions.

**Prerequisites:** This course is for certified/commissioned State and Local Law Enforcement officers and trainers with more than one year's experience. **This course is not an executive level course.**

## Instructor Training Certification Course (ITC)

### COURSE DESCRIPTION

This course is an intensive 5-day training course that provides instruction on: adult learning theory and practice, job and training task analysis, training risk and hazard analysis, developing learning objectives and lesson plans, communication skills, instruction delivery and delivery media, developing tests and conducting evaluations, and performing after action reviews. The classroom sections of the training are supported by a series of practical exercises that require the student to perform and teach tasks associated with WMD techniques, procedures and equipment to support classroom lessons. The evaluation strategy for this training consists of one written test and two performance evaluations. To complete this training and receive a certification from the Center for Domestic Preparedness (CDP) as a Department of Homeland Security (DHS) certified instructor, the student must achieve a minimum score of 70 per cent for each test/evaluation. Students that enroll in this course and fail to achieve the minimum standard for each test/evaluation will receive a certificate of attendance, but will not be certified as an instructor.

**Prerequisites:** Applicants must have successfully completed a WMD operational, technician or command/management level DHS, ODP recognized training program. **Prerequisite Certificate must be sent with application.**

## NEW COURSES

### WMD Emergency Medical Services Training (EMS)

### COURSE DESCRIPTION

The WMD EMS Course is a 3-day training program designed to educate paramedic and EMT responders on awareness and operational level skills needed to respond to a WMD mass casualty incident. The course instruction includes an overview of WMD materials including chemical, biological, and radiological agents, and explosive devices. Responders will explore levels of personal protective equipment and issues relating to their own safety and wellness during and after a WMD incident. Methods of victim rescue and treatment will be practiced including extrication, cutout, triage, decontamination, assessment, and transport. Responders will be encouraged to use routine job skills and experience how they differ in a WMD environment. Responders will be made aware of special crime-scene considerations and the details of working a multitude of agencies including the Public Health department. The training culminates with a multi-task hands-on scenario exercise.

**Prerequisites:** Responders must be a state-licensed paramedic, EMT, or emergency care provider (emergency room physician or nurse).

## WMD Emergency Responder Hazardous Materials Technician Training (ER HazMat)

### COURSE DESCRIPTION

The Emergency Responder Hazardous Materials Technician Training course is a 5-day training program designed to provide emergency responders with Weapons of Mass Destruction (WMD) and hazardous materials technical training to satisfy requirements of OSHA 1910.120 (q)(6)(iii). The guidelines of this course target those emergency responders who may be responding to the scene of a hazardous material or potential terrorist/criminal use of WMD.

This course is a combination of classroom training and several hands-on exercises that culminate in a final day of practical and written evaluations. The training covers WMD specific material and the Eight Step Process for HazMat Incident Management which includes Site Management and Control, Identifying the problem, Hazard and Risk Evaluation, Selecting Personal Protective Clothing and Equipment, Information Management and Resource Coordination, Implementing Response Objectives, Decontamination, and Terminating the Incident.

**Prerequisites:** HazMat awareness and eight hours of operational level training as identified in OSHA 1910.120 (q)(6)(i) and OSHA 1910.120 (q)(6)(ii)  
\*\* Course fulfills OSHA requirements for Bomb technicians wishing to attend the FBI Hazardous Devices School for delivery of the Hazardous Materials Basic Course [HMBC]

### Program I

Program I is the [WMD Basic Agricultural Emergency Response Training](#) course (PER-270).

#### Course Description

The WMD Basic Agricultural Emergency Response Training course is a 32-hour course that provides the responder with an overview of agro terrorism and Chemical, Biological, Radiological, Nuclear, or Explosive (CBRNE) hazards, relative to their potential impact upon agricultural resources and the agricultural community. Lectures include response actions, epidemiology, zoonotic diseases, foreign animal diseases, animal restraint and euthanasia, and animal carcass disposal. Hands-on training provides knowledge and skills in selecting and using Personal Protective Equipment (PPE), conducting decontamination, using survey and monitoring equipment, and preserving the crime scene. The course culminates with a scenario-oriented, task-driven, hands-on practical exercise involving a response to a hazardous event in an agricultural setting.

#### Program Offerings

Weeks [42](#), [46](#), [47](#), [52](#)

### Program M

Program M is the [WMD Respiratory Protection](#) course (PER-263).

#### Course Description

The WMD Respiratory Protection course is a 16-hour course that provides the responder with an overview of the history of respiratory protection; seminars on how to read, understand, and apply code of federal regulation standards relating to respiratory protection; and hands-on practical exercises utilizing the responder's knowledge and skills in performing qualitative and quantitative fit testing with respiratory protection devices with the ability to interpret the test results. As part of the 16 contact hours for this course, the responder will learn how to develop, implement, and sustain an individual respiratory protection program for their department and/or jurisdiction.

#### Program Offerings

Week [42](#)

## Program X

Program X is a combination of the [Managing Civil Actions in Threat Incidents \(MCATI\) Protester Devices](#) course (PER-202) and the [Hands-On Training](#) course (PER-262).

### PER-202 Course Description

The Managing Civil Actions in Threat Incidents (MCATI) Protester Devices course is a 24-hour training course that provides the responder with the ability to identify the purpose of protester devices; identify the various types of locking protester devices used in civil actions; discuss legal issues as they relate to the use of and the extrication of individuals from protester devices; outline the responsibilities of extrication team members; compare the roles and responsibilities of the extrication team with other law enforcement assets; demonstrate the safe operation of tools used to extricate an individual from protester devices; and demonstrate methods of extricating an individual from protester devices. At the conclusion of the course, the responder will demonstrate knowledge to manage civil actions in threat incidents relating to protester devices.

### PER-262 Course Description

The WMD Hands-On Training course is a two-day course providing emergency responders with Chemical, Biological, Radiological, Nuclear, or Explosives (CBRNE)-specific response skills, enabling them to respond safely to a suspected incident at a performance-defensive level. HOT provides responders who have previously received Office of Grants and Training (G&T)-certified CBRNE response training the opportunity to expand their practical abilities through hands-on training. Responders attending HOT participate in training with Personal Protective Equipment (PPE), survey and monitoring equipment, victim triage, and decontamination procedures. This course further prepares responders for a CBRNE incident by providing them the opportunity to practice their knowledge and skills in the world's only toxic chemical training facility dedicated solely to emergency responders—the Chemical, Ordnance, Biological, and Radiological Training Facility (COBRATF).

### Program Offerings

Weeks [43](#), [48](#), [50](#)

## Program J

Program J is the [Managing Civil Actions in Threat Incidents \(MCATI\) Basic](#) course (PER-200).

### Course Description

The Managing Civil Actions in Threat Incidents (MCATI) Basic course is a 24-hour course that provides the responder with an overview of tactics of crowd control during a civil disorder or a Chemical, Biological, Radiological, Nuclear, or Explosive (CBRNE) event. During the course, the responder will receive instruction on civil disorder, crowd control formations, and vehicle tactics to mitigate and control crowds. Additionally, the responder will learn the psychological influences of crowd mob behavior, protestor tactics, use of Riot Control Agents (RCA), and decontamination procedures necessary for RCA. The responder will also receive instruction on mass arrests, transporting passive arrestees, use of protective shields during a civil event, the impact of legal considerations on civil disorders, the use of non lethal munitions, and the use of Personal Protective Equipment (PPE). The responder will be given the opportunity to train in crowd control and mock arrest scenarios and work with a Mobile Field Force (MFF) to demonstrate the tactics to safely resolve a mob situation.

### Program Offerings

Weeks [45](#), [49](#)

## Program K

Program K is the [Managing Civil Actions in Threat Incidents \(MCATI\) Command](#) course (MGT-300).

### Course Description

The Managing Civil Actions in Threat Incidents (MCATI) Command course is a 24-hour training course that prepares the management level responder to serve as a member of an incident management team during a civil action or disorder. The course provides instruction on incident management,

incorporating preplanning considerations and other responsibilities of management level responders during such an event. The course also provides the responder with the ability to develop a local Incident Action Plan (IAP) for a civil action or disorder and implement response actions from the management level. The course culminates with the responder participating in a tabletop exercise that enables them to use knowledge and skills developed in the previous session to plan for and command resources at the incident site.

Program Offerings

Weeks [42](#), [46](#)

## Program OO

Program OO is the [Pandemic Influenza Planning and Preparedness \(CDP 01-006\)](#) course.

CDP 01-006 Course Description

The Pandemic Influenza Planning and Preparedness course is a 24-hour course that provides the responder with an overview of pandemic influenza, its challenges, and many facets of community planning that will enable a community to prepare and effectively respond to a pandemic influenza event. Following lectures regarding various aspects of influenza and pandemic influenza, the course culminates in an all-day exercise that casts the planning and management level responder in a community role where the responder must participate in the planning process to prepare a fictitious community for pandemic influenza. As part of their 24 contact hours for this course, the planning and management level responder will experience the outcome of the planning process as the beginning of an out break unfolds in a community.

Program Offerings

Weeks [41](#), [43](#), [46](#), [49](#), [50](#)

Course Code: B 960

Course Name: [Fundamentals of Healthcare Emergency Management \(FHEM\)](#)

Course Code: B 965

**Course Name:** Advanced Public Information Officers Course: Health and Hospital Emergencies (APIOHHE)

**Course Code:** B 966

**Course Name:** Pandemic Influenza Planning and Preparedness (PIPP)

**Course Code:** CDP 01-006

**Course Name:** WMD Emergency Medical Services (EMS)

**Course Code:** PER-267

**Course Name** Hospital Emergency Response Training for Mass Casualty Incidents (HERT)  
**Course Code** CDP 004-06 **Course Length** 3.0 day(s) **Course Description** The 24-hour HERT for MCI course is designed to provide medical operation guidance to hospitals, Emergency Medical Services (EMS), healthcare facility personnel, and others who may become involved in an MCI as a result of a natural, accidental, or intentional event. The course assists the healthcare responder in understanding the relationship between a Hospital Incident Command System (HICS), a scene Incident Command System (ICS), and other IMS used by municipal Emergency Operations Centers (EOC) during all manners of emergencies; addresses PPE requirements; and presents guidance for HERT design, development, and training. This course helps prepare facilities and agencies to conduct a safe and effective emergency medical response to MCI. This is a hands-on course, and participants must be physically and psychologically fit to wear PPE during the training. HERT MCI culminates with the application of this training in small- and large-group, facilitated practical exercises. Target

**Audience/**

**Disciplines** Emergency Medical Services (EMS), health care, and public health. Additional

**Qualifications/**

**Certifications** Have successfully completed IS-100, IS-200, and IS-700. It is recommended to

have successfully completed CBRNE or HAZMAT training at the operations level as specified in 29 CFR 1910.120(g)(6)(ii), at a minimum.

Course Name Healthcare Leadership and Administrative Decision Making (HCL) Course Code CDP 007-06 Course Length 4.0 day(s) Course Description The HCL course is a four-day, 32-hour course that provides healthcare responders an opportunity to address realistic decisions regarding an all-hazards disaster in a facility-based exercise. The course is a combination of lecture and exercises, providing responders a foundation on which to make critical decisions during the fast-paced final exercise. The course includes lectures on decision making in a disaster; ICS, *NIMS*, and HICS in a healthcare facility; IEMS; PPE and decontamination procedures in a healthcare facility; and media/public information. Target Audience/  
Disciplines Emergency Medical Services (EMS), health care, and public health.

Course Name Fundamentals of Healthcare Emergency Management (FHEM) Course Code CDP 008-06 Course Length 4.0 day(s) Course Description The FHEM is a four-day, 32-hour course which provides healthcare personnel with a foundation of knowledge in healthcare emergency management. The course includes lectures on standards, regulations, and organizations affecting healthcare entities and the integration of government agencies and stakeholders; disaster preparedness planning; staffing and personnel; emergency management issues for healthcare; PPE and decontamination; evacuation, isolation, and quarantine; ethical issues; financial issues; public affairs; and training, drills, and exercises. Small exercises are conducted in hazard vulnerability assessment, managing medical surge, and developing a SOCO. The final exercise provides an opportunity to apply a majority of the

fundamental principles learned in the course. Target Audience/  
Disciplines Emergency Medical Services (EMS), health care, and public health. Additional Qualifications/  
Certifications Training in ICS: [IS-100](#) level (minimum) and [IS-700](#) and [IS-200](#) (optional).

The CDP recommends that candidates also have the following:

<b>Course Name</b>	Advanced Public Information Officer Health and Hospital Emergencies (APIOHHE)
<b>Course Code</b>	CDP 009-06
<b>Course Length</b>	4.0 day(s)
<b>Course Description</b>	The four-day APIO course combines lectures, facilitated discussion, activities, and exercises, allowing participants to apply knowledge and skill to manage a JIC in an emergency situation. This is accomplished with lectures in risk and crisis information, legal issues, policies, interpersonal skills, and emergency information systems. Activities such as the writing exercise and the news conference exercise allow the PIO to practice skill sets required to conduct the practical exercise on the final day.
<b>Target Audience/ Disciplines</b>	Emergency Medical Services (EMS), health care, and public health.
<b>Additional Qualifications/ Certifications</b>	Training in ICS: <a href="#">IS-100</a> level (required) and <a href="#">IS-700</a> , <a href="#">IS-200</a> , <a href="#">IS-300</a> , and <a href="#">IS-400</a> (optional)

Course Name Pandemic Influenza Planning and Preparedness (PIPP) Course Code CDP  
001-06 Course Length 3.0 day(s) Course Description PIPP is a three-day training course  
providing an overview of pandemic influenza, its challenges, and many facets of community  
planning that will enable a community to prepare and effectively respond to a pandemic  
influenza event. Following lectures regarding various aspects of influenza and pandemic  
influenza, the course culminates in an all-day exercise that casts planning and management

level responders in a community role where he or she must participate in the planning process to prepare a fictitious community for pandemic influenza. As part of their 24 contact hours for this course, planning and management level responders will experience the outcome of the planning process as the beginning of an outbreak unfolds in a community.

#### Target Audience/

Disciplines Law Enforcement, Emergency Medical Services (EMS), Emergency Management Agency (EMA), Fire Service, hazardous materials (HAZMAT), public works, governmental administrative, public safety communications, health care, and public health. Additional

#### Qualifications/

Certifications PIPP is designed for candidates that have successfully completed the IS-700 course offered by the Federal Emergency Management Agency (FEMA).

Course Name WMD Emergency Medical Services Training (EMS) Course Code PER-267

Course Length 3.0 day(s) Course Description WMD EMS is a three-day course offering lectures, hands-on training, and practical exercises. The lectures include CBRNE incident management; treatment of victims of exposure to chemical, biological, and radiological hazards, as well as explosions. Hands-on training modules provide the emergency medical responder with the knowledge and skills to perform triage operations while in PPE and to perform decontamination of victims. In the Cold Lanes, emergency medical responders have an opportunity to practice additional treatment protocols and transport and tracking procedures. EMS culminates on the third day with a practical exercise involving skills learned

during the course. Target Audience/

Disciplines Emergency Medical Services (EMS), health care, and public health. Additional  
Qualifications/

Certifications EMS is designed for responders in EMS, including those trained as Emergency Medical Technicians (EMT) and paramedics. Hospital staff, including physicians and nurses, will also benefit from this training. Responders must be a state-licensed paramedic, EMT, or emergency care provider (emergency room physician or nurse). CEUs 2.4

Your Social Security Account Number (SSN) will be used to identify you precisely when it is necessary. Although disclosure of your SSN is not mandatory, your failure to do so may impede selection for training at the Center for Domestic Preparedness.

**Center for Domestic Preparedness**  
**Medical Screening Form**  
**(Please Print Legibly and Accurately)**

**Date Completed** \_\_\_\_\_

**Responders Name:** \_\_\_\_\_ **Signature:** \_\_\_\_\_

**Supervisors Name:** \_\_\_\_\_ **Signature:** \_\_\_\_\_  
(Verifying Official)

**Course Requested:** \_\_\_\_\_

1. Responders under consideration for attendance at the Center for Domestic Preparedness, WMD Technical Emergency Response Training Course (TERT), WMD HAZMAT Technician Training Course (HT), WMD Hands-On Training Course (HOT) or the WMD HAZMAT Technician Sustainment Training Course (HTS) must complete this medical screening questionnaire.

2. Do you now or have you previously been treated for or experienced: (Please Circle)

Heart Disease or Condition	Yes	No	Seizures or Epilepsy	Yes	No
Chest Pain	Yes	No	Diabetes	Yes	No
Frequent Fainting	Yes	No	Heat Injury (last 12 months)	Yes	No
Asthma	Yes	No	Hyperventilated while wearing PPE	Yes	No
Emphysema	Yes	No	Claustrophobia	Yes	No
Chronic Bronchitis	Yes	No	Taking narcotic medication	Yes	No
Other Lung or Chest Problems	Yes	No	Have an open wound or sutures	Yes	No
Perforated Eardrum	Yes	No			

3. Any question with a **YES** answer requires the responder to have medical screening by a licensed physician certifying the responder is in appropriate health to perform tasks in personal protective clothing and respirator systems. High blood pressure (150 over 90) may preclude participation in Toxic Agent Training. **Pregnancy disqualifies responder candidates from attending this training.**

4. Forward Medical Screening Form and Physician Certification (if required) with Training Course Application. Additional medical screening will be conducted prior to entering the Toxic Agent Training Facility.
